

April 25, 1988

The Sullivan County Seal which I have entered is divided up into four equal sections, each of which have different symbolic meaning. They are as follows:

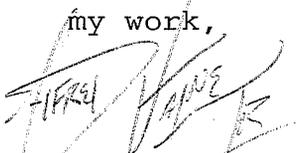

First, the trout, representing our will to survive as a county.

Secondly, the mountain representing the land and scenery in which many of the Sullivan County residents utilise as as summer/winter recreation.

Third, the maple trees representing an old fashioned view of Sullivan County Industry.

Finally, the deer, strongly representing our country's freedom. Also the shield which surrounds all of these, represents that we, the residents of Sullivan County are under the protection of our National Government.

Thank-you for considering  
my work,

Alfred G. Vaine Jr.
